

Data exchange across the German cancer registries

Plattform § 65c

- Expert committee - Association of statutory national cancer registries
- Why?
 - §65c SGB V - German law for the German cancer registration
 - Cancer registration is federal state issue -> 15 cancer registries in Germany
- Objective: Development of technical procedures and standardisation of recommendations
- Working groups and networks for the harmonisation:
 - Doku-Netzwerk, IT-Netzwerk, Netzwerk Abrechnung
 - AG Bildung Best-of, AG Klassifikationen, AG Schulungen, ...

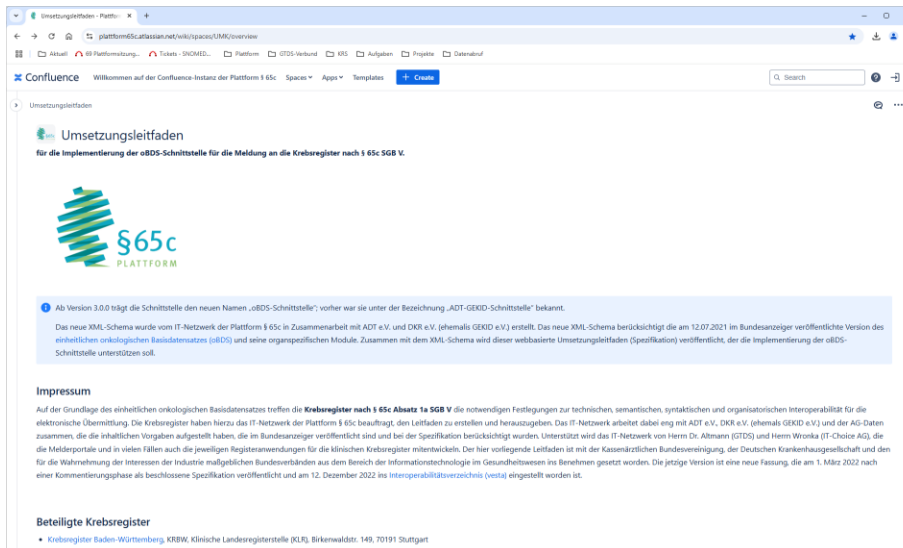

Bundeseinheitlicher onkologischer Basisdatensatz

- Standardised national oncology basis data set
- responsible for data set: AG Daten
- published in Bundesanzeiger (Official organ of promulgation and publication of the Federal Republic of Germany)

```

Data exchange

- Recording of reports in the respective treatment location register
 - The place of treatment register for a notification is responsible for forwarding this notification once to the notification's place of residence register
- Register of places of residence of the patient
 - The place of residence register of a notification is (and remains) responsible for the further distribution of this notification to all registers that are place of residence or place of treatment registers in at least one notification known to it for the same register patient. (Address book)

Lots of data exchange

Data exchange interface

- Dialect of XML schema: current version
oBDS_RD_2021.07_3.0.3_v1.0.1.xsd
 - different mandatory fields
 - registration office
 - death certificate
- Implementation guideline
